DEUTZ ITALY CONCLUDES PARTNERSHIP AGREEMENT WITH RIGAS DIZELIS DG

Nicola Capuzzo · Thursday, July 14th, 2022

— COMUNICAZIONE AZIENDALE —

We are proud and excited to announce that last month we settled a commercial partnership with Rigas Dizelis DG, the Latvian manufacturer of marine equipment (generating sets, propulsion units and pumping units, all based on high-speed marine diesel engines from 10 up to 1600 kW).

On one hand this partnership will allow DEUTZ Italy to integrate in its Marine Generators portfolio also units with low electric output, i.e., 10 kW up to 1550 kW, which RIGAS DIZELIS DG designs and assembles based on high-speed diesel engines delivered by leading and renowned manufacturers (Baudouin Moteurs, Scania, John Deer, Perkins, Mitsubishi, just to name a few).

On the other hand RIGAS DIZELIS DG will be able to reach those regions that are currently manned by DEUTZ Italy. In fact, in addition to Italy, the agreement covers the Balkans, Spain, Monte Carlo, Malta, Greece, Cyprus and some areas of Africa.

Marco Colombo, CEO of DEUTZ Italy Srl

Juris Dzenis, General Director of Rigas Dizelis DG

“Forming a partnership with R?GAS D?ZELIS DG was an easy decision,” said Marco Colombo, CEO of DEUTZ Italy “Both organizations strive to deliver customer focused, top quality services that truly add value, and for a reasonable price. I am hugely energized to work and partner with a like-minded organization.” Furthermore Mr. Colombo added: “The engineering capability and the production capacity of R?GAS D?ZELIS DG will allow us to keep intact our reputation as a supplier of marine generator sets on board small boats and small-medium sized vessels, as our company had done for many decades under the name of IML Motori, that was the name of DEUTZ Italy before it was acquired by DEUTZ AG in 2017. We are confident that this agreement will significantly benefit Rigas Dizelis sales in our regions, as well as will allow us to increase our turnover related to Service business.”

“We are very pleased and excited about the mutually beneficial partnership that is formed between our companies. The profiles of both companies complement each other in different ways, which

will result in covering more diverse business niches and will enable both companies to acquire a larger market share” said Juris Dzenis, General Director of R?GAS D?ZELIS DG.

About DEUTZ ITALY

DEUTZ Italy Srl, as a fully owned company of DEUTZ AG, the independent provider of diesel, gas and electric drivetrains in the power range up to 620 kW, delivers high-quality, environmentally friendly and efficient drives in off-highway applications in her assigned region. In addition, DEUTZ Italy offers the marine and power generation markets custom solutions by providing engineering, procurement, construction and after-sales services, based on engines and machinery manufactured by third parties on the basis of long-term commercial agreements.
